CANS 2012 | Call for Papers

11th International Conference on Cryptology and Network Security

December 12–14, 2012 in Darmstadt (Germany)

<http://cans2012.cased.de>

The International Conference on Cryptology and Network Security (CANS) is a recognized annual conference, focusing on all aspects of cryptology and network security, attracting cutting-edge results from world-renowned scientists in the area. The 11th edition of the conference will be held in Darmstadt (Germany), organised by the Center for Advanced Security Research Darmstadt (CASED) in the modern congress center Darmstadtium. Earlier editions of CANS were held in Taipei (2001), San Francisco (2002), Miami (2003), Xiamen (2005), Suzhou (2006), Singapore (2007), Hong Kong (2008), Kanazawa (2009), Kuala Lumpur (2010), and Sanya (2011). This is the first time that CANS will be held in Europe. CANS 2012 is planned to be held in cooperation with the International Association of Cryptologic Research (IACR) with proceedings published by Springer.

Access Control
Anonymity
Authentication, Identification
Biometrics
Block and Stream Ciphers
Cloud Security
Cryptographic Algorithms, Protocols
Denial of Service
Embedded Platform Security
Hash Functions

(Future) Internet Security
Key Management
Network Security
Peer-to-Peer Security
Identity and Trust Management
Public-key Cryptography
Secure Hardware
Security Modeling and Architectures
Spyware Analysis and Detection
Wireless and Mobile Security
